

Uncovering Job Opportunities through Social Media Networking

Attention Job Seekers!

Capitalize on online social networking tools to build and cultivate relationships in order to uncover job opportunities.

During this **FREE** workshop, you will learn:

- The importance of defining your goals before going online.
- About the most popular social and business networking sites.
- How to register and get connected on one of the most popular social media sites, LinkedIn.
- How to create, build and cultivate relationships over the Web.
- How employers and recruiters are actively scanning networking sites for potential candidates.
- The rules of online etiquette.

*To be successful in this class you need good computer skills
and know how to navigate the Internet.*
